

Fizzo: Website Content & Ingredients

Oct 5, 2026 · @Vikram

1. Brand section

Use this for the new third brand card on the homepage, alongside Juicera and Fruizy.

Fizzo

Fizz with Masti.

Fizzo is Hyderabad's playful take on the nostalgic Indian soda: bold, bubbly flavours like Jeera, Paan and Chilli Mango that you won't find on a national brand's shelf. Artificially flavoured and proud of it, made for street-side cravings, biryani lunches and everyday fun.

Label line: All Fizzo beverages are artificially flavoured. Please see the bottle label for full ingredients.

2. Flavour cards

Each card has a tagline, a short description, taste notes and a serving suggestion. Taste notes for Jeera, Sugandhi and Paan are interpretations and should be matched to your actual product.

1. Lime

The classic nimbu soda, turned up.

Sharp, zesty and ice-cold. Fizzo Lime is the thirst-quencher you grew up on, with a tangy bite and a clean, crisp finish.

Taste notes: Tangy · Zesty · Refreshing

Best with: Hot afternoons, fried snacks, a plate of chaat

2. Orange

Sunshine with a sparkle.

Sweet, bright and unapologetically fizzy. A throwback to orange-candy days in a bottle that's always ready to share.

Taste notes: Sweet · Citrusy · Bubbly

Best with: Parties, picnics, after-school treats

3. Blue Mojito

Cool blue. Zero effort.

A mint-and-lime chill in an eye-catching blue. Crisp, cooling and made for the photo as much as the sip.

Taste notes: Minty · Lime-bright · Cooling

Best with: Hangouts, weekends, anything with friends

4. Jeera

Masala fizz, desi to the core.

Warm roasted cumin meets tangy, salty-sweet spice. Fizzo Jeera is the soda that belongs next to a hot plate of biryani.

Taste notes: Savoury · Tangy · Spiced

Best with: Biryani, kebabs, heavy meals

5. Chilli Mango

Sweet first. Then the kick.

Juicy mango sweetness with a playful chilli heat that sneaks up on you. The sip that makes you go "one more."

Taste notes: Mango-sweet · Spicy · Bold

Best with: Street snacks, summer evenings

6. Root Beer

Smooth, creamy, a little mysterious.

Rich vanilla-spice notes with a creamy, foamy fizz. A different kind of soda for those who like to try something new.

Taste notes: Creamy · Vanilla-spiced · Mellow

Best with: Burgers, fries, dessert

7. Sugandhi

Fragrance in every fizz.

A fragrant, floral soda with the old-world aroma of Indian celebrations. One sip and it feels like a festive occasion.

Taste notes: Floral · Aromatic · Sweet

Best with: Festivals, family gatherings, sweets

8. Paan

The after-meal favourite, now fizzy.

All the sweet, cooling character of meetha paan in a sparkling bottle. A natural finish to any feast.

Taste notes: Sweet · Cooling · Herbal

Best with: After meals, celebrations

3. Ingredients

These follow the typical formulation of Indian goli-style sodas, listed in descending order by weight as FSSAI requires. They are templates, not verified formulas: the final list must match your flavour supplier's spec sheet and your printed label.

Flavour	Ingredients
